E. C. WINNIE

Personal Mention

Harold Rosenbrock of the Reno Gazette, spent yesterday in Carson visiting relatives and friends.

J. B. Royce was a through passenger on the morning train, enroute for Stewart, after a trip to the coast.

George Vonderhyde was an incoming passenger on the morning train, returning from a visit to coast points.

Miss Mildred Evans was a passenger on Sunday evening's train for Reno, where she will spend her vacation with friends.

Jess Sherman of the Golden Jewelry store leaves this evening for Tacoma, where he will spend his vacation with his mother.

Ed Patterson, receiver for the Nye and Ormsby county bank, returned yesterday from a several days' business visit to Tonopah and Goldfield.

E. C. Winnie, the local plumber, has just returned from a most enjoyable and extended auto tour of Oregon, to which state he went after Mrs. Winnie, who returned with him to Carson.

Mrs. Joe Rochon, accompanied by her two children, Joe and Mary, left for San Francisco Saturday evening to visit Mr. and Mrs. Dick Thomas. Mrs. Thomas was formerly Dorothy Rochon.

George Beckley, an old-time and well known resident of Tonopah, was a visitor in Carson today. Mr. Beckley is returning to the southern camp from a few weeks' vacation spent in San Francisco.

C. W. Grover, fish and game warden, leaves this evening for the eastern part of Nevada to look into fish and game conditions. Probably before returning to his offices in this city Mr. Grover will make a detour of a large section of the state.

Mrs. William Epstine will be a passenger on the evening train for Ashford, Ore., where she will visit with relatives for a month. She will be accompanied on the trip by Mrs. Julia B. Cowing who will spend some time with friends in Seattle.

Rev. Clifton Macon, who has been filling the pulpit at St. Peter's during the absence of Rev. L. B. Thomas, left today, with his family, for Oakland. He

was accompanied by Bishop Hunting and wife, who contemplate a visit to the Yosemite. The Macon's during their brief sojourn in Carson made many friends, whose wish it is that they may again be privileged to visit Carson.

Early yesterday morning Hubert Raycraft, E. S. Daugherty, Charlie Evans, Pete Crow, Harry Edwards and Dwight Edwards started for the Walker river to spend a day fishing. They returned in the evening well laden with trout, Mr. Daugherty having been fortunate enough to land a five-pounder.

Mining Company Officers Hold Special Meeting

L. A. Howe, D. C. McIntyre, H. Lewis, C. Gillett and A. W. Knudson, all of Salt Lake City and stockholders of the Dayton Reduction company, are in this city in attendance upon a special meeting being held today in the offices of John M. Chantz, attorney for the corporation.

Yesterday the gentlemen made a trip of inspection to their property about four miles below Dayton and at the conclusion of the meeting here today expect to return to their homes in Salt Lake.

CAN YOU KNIT?

If you can knit or are willing to learn how to knit and have not already enrolled in Red Cross work, send your names in to Mrs. Bray or Mrs. Knippenburg.

A call has gone forth for 1,500,000 knitted sets before winter sets in and this means that all who can must help in the work.

It is essential that the ladies mentioned know how many they can depend upon to enable them to make requisition for the necessary supplies.

Send in your names at once and help increase the comfort of our soldiers and the soldiers of the Allies the coming winter.

The government needs farmers as well as fighters. Two million, three hundred thousand acres of Oregon and California Railroad company grant lands. Title reverted in United States. On Return to State Will Proceed to Ely

Governor Boyle and Attorney General Thatcher, who have been visiting Portland, Ore., the past few days attending a conference of western governors, ostensibly to discuss fuel questions, but in reality to provide measures to put a stop to further encroachments of the I. W. W.'s in the western states, will arrive in Reno tomorrow, it is believed, and either one or both of the officials will at once proceed to Ely to look into the labor situation there.

Case of Leprosy Is Discovered In Tonopah

Dr. S. L. Lee, secretary of the State Board of Medical Examiners, was in receipt of a telegram yesterday from Dr. J. K. Masterson, health officer of Tonopah, stating that a case of leprosy had been discovered in that camp and asking what disposition should be made of the victim. Nevada having no asylum for the care of lepers and of disorders of that character, Dr. Lee telegraphed to Surgeon General Blue of the United States army for advice and as soon as he receives instructions he will notify Dr. Masterson what course to pursue.

Dr. Lee has also been notified by the Humboldt county authorities that David Estey, an old-time resident of that section, died at Paradise valley a few days ago of tick or spotted fever. Estey had been sick nearly a month. He was 72 years of age. This is the first case of death from tick fever for a number of months.

McKinnon In Rochester Stirring Up Trouble

A dispatch received in Reno yesterday from Lovelock, stated that Charles McKinnon, reputed I. W. W. organizer, who arrived in the camp of Rochester Saturday afternoon will be escorted to the first train and asked to leave the country, according to the intention of fifty local merchants and business men.

Word reaching Lovelock is to the effect that McKinnon, who was run out of Yerington under conditions that promised a labor crisis in that district, was stirring up trouble in Rochester. As soon as the business men had verified the report that McKinnon had a band of fifteen men organized with him and had begun the campaign of stirring up trouble with the workers in camp, they began securing machines to start out for Rochester with the intention of escorting the disturber to the train and getting him started on his way the first opportunity that was offered.

Greater Powers Are Added By Congress

[Continued from Page One]

United States, at least one of whom shall be chosen from the active or retired list of the Engineer Corps of the army, at least one of whom shall be an expert hydraulic engineer from civil life, and the remaining five of whom may be selected either from civil life or the public service, is hereby created and authorized, under such rules and regulations as the president may prescribe, and subject to the approval of the heads of the several executive departments concerned, to bring into co-ordination the engineering, scientific and constructive services, bureaus, boards and commissions of the several governmental departments of the United States and commissions created by congress that relate to the study, development, or control of waterways and water resources and subjects related thereto, or to the development and regulation of interstate and foreign commerce, with a view to uniting such services in investigating, with respect to all watersheds in the United States, questions relating thereto, or to the development and regulation of interstate and foreign commerce, with a view to uniting such services in investigating, with respect to all watersheds in the United States, questions relating to the development, improvement, regulation and control of navigation as a part of interstate and foreign commerce, including therein the related questions of irrigation, drainage, forestry, arid and swamp land reclamation, etc. * * * to secure the necessary data, and to formulate and report to congress, as early as practicable, a comprehensive plan or plans for the development of waterways and the water resources of the United States for the purposes of navigation and for every useful purpose, and recommendation for the modification or discontinuance of any project herein or heretofore adopted. * * * No member selected from the public service shall receive additional compensation for services on said commission, and members selected from civil life shall receive compensation of \$7,500 per annum.

In all matters done, or to be done, under this section relating to any of the subjects, investigations, or questions to be considered hereunder, and in formulating plans, and in the preparation of a report or reports, as herein

provided, consideration shall be given to all matters which are to be undertaken, either independently by the United States or by co-operation between the United States and the several states political subdivisions thereof, municipalities, communities, corporations and individuals within the jurisdiction, powers and rights of each, respectively, and with a view to assigning to the United States such portion of such development, promotion, regulation and control as may be undertaken by the United States, and to the states, political subdivisions thereof, municipalities, communities, corporations, and individuals such portions as belong to their respective jurisdictions, rights and interests.

The commission is authorized to employ, or retain, and fix the compensation for the services of such engineers, transportation experts, experts in water development and utilization, and construction of eminence as it may deem necessary to make such investigations and to carry out the purposes of this section. And in order to defray the expenses made necessary by the provisions of this section there is hereby authorized to be appropriated such sums as congress may hereafter determine, and the sum of \$100,000 is hereby appropriated, available until expended, to be paid out upon warrants drawn on the secretary of the treasury by the chairman of said commission.

The commission shall have power to make every expenditure requisite for and incident to its authorized work, and to employ in the District of Columbia and in the field such clerical, legal, engineering, artistic and expert services as it may deem advisable. * *

Nothing herein contained shall be construed to delay, prevent, or interfere with the completion of any survey, investigation, project, or work herein or heretofore or hereafter adopted or authorized upon or for the improvement of any of the rivers or harbors of the United States or with legislative action upon reports heretofore or hereafter presented.

German Spies Said to Be In Carson Valley

Word has been received from Minden and Gardnerville sections that several peculiar and suspicious acts have been committed there the past few days and it is generally accredited to German activity.

In the hills back of the two places several fires have been started and the circumstances were such that they could not be charged to campers. An attempt was made also to set fire to the flouring mill down there, but it was discovered in time to prevent a conflagration.

It is also stated that three men, one traveling on a bicycle and the other two walking, have been seen about the irrigating ditches in the valley and the dams in the hills. They were apparently taking measurements, but for what purpose could not be learned. They refused to answer questions when talked to and on finishing their work said they were enroute to Fallon. Evidently they were there for no good purpose.

Carload of Pipe and Iron Arrives for City

The Board of City Trustees held a meeting this morning at which many of the current bills were paid. Among the number was the account of Engineer E. J. Morser for \$952, which included all past services of W. H. Kirk, former engineer, and which by agreement were paid to Mr. Morser.

A bill of \$75, the city's proportion of the amount to be paid J. Downey for a block of land at Lone Mountain on which will be established the rock crusher, was ordered paid. On this account the county will also pay \$75.

Approximately \$4,000 was ordered paid for the carload of pipe and iron to be used in street work now unloading at the depot. The pipe is of 12, 10 and 8-inch diameter and is for the new culverts which will be installed both on Carson and the back streets, and the iron is for runways into garages and other places.

Power Company Busy Distributing New Poles

The Truckee River General Electric company's force is today distributing and erecting new poles along Curry street and the obtaining of enough poles to complete this line will enable the company to remove the wires and remaining poles from Carson street, though enough poles have not as yet been secured to build all the new lines made necessary by the paving changes.

One needs but take a look at the superior quality of these new poles to be convinced that they have been hard to obtain, each and every one of them being a magnificent specimen and of a size such as has not been seen in any of the poles used heretofore by any of the utility companies in Carson.

SANDWICHES

Cream Cheese and Ripe Olives
Stone and chop the olives fine and beat in with a little cream or Neuf-châtel cheese, adding sweet cream to moisten, and salt and paprika to season. Spread on slices of whole wheat or brown bread and press together.

Lettuce Sandwiches
An entire leaf of lettuce is seldom used nowadays in a sandwich. Instead, the leaf is cut into ribbons with scissors, put between thin slices of white bread, well buttered, and seasoned with mayonnaise. French dressing or salt only, as preferred. The lettuce should be crisped before using.

Oyster Sandwiches
Cook the oysters in their liquor about two minutes, stir in a stiff mayonnaise, and spread between slices of sandwich bread. Another way to make these sandwiches is to fry large oysters, placing one between bread slices with a lettuce leaf dipped in French dressing or mayonnaise. French dressing or salt pepper is deemed to be an improvement by many.

Fish Sandwiches
Any cooked fresh fish, picked into bits, well seasoned with salt and pepper and moistened with mayonnaise, makes an excellent filling for a sandwich. A little chopped pickle is also an addition.

Egg Sandwiches
Remove the yolks of two hard-boiled eggs and rub smooth. Season with a little salt, paprika, mustard and lemon juice or vinegar to stiffen. Mayonnaise is still better. Add the chopped whites and spread between slices of buttered bread.

Asks Settlement
J. C. Martin of Fernley appeared before the Industrial Insurance commission today and asked settlement for injuries received in the pursuit of his employment. Through an accident Martin recently had two fingers chopped off.

"Minimum Carbonization"

STUDEBAKER
Harmon Motor Co., Phoenix
"have had minimum amount of carbonization, and can heartily recommend Zerolene."

VELIE
Roesch Motor Car Co., Seattle
"we gladly recommend Zerolene for Velie cars and trucks."
